# ANNOUNCEMENT

OF

## MONMOUTH COLLEGE

FOR THE YEAR BEGINNING

September 7th, at 2 P. M., 1892.

Five full courses of study leading to graduation and degrees are offered.

**1st. Classical Course,**  
OF FOUR YEARS LEADING TO DEGREE OF A. B.

**2d. Scientific Course,**  
OF FOUR YEARS LEADING TO DEGREE OF B. S.

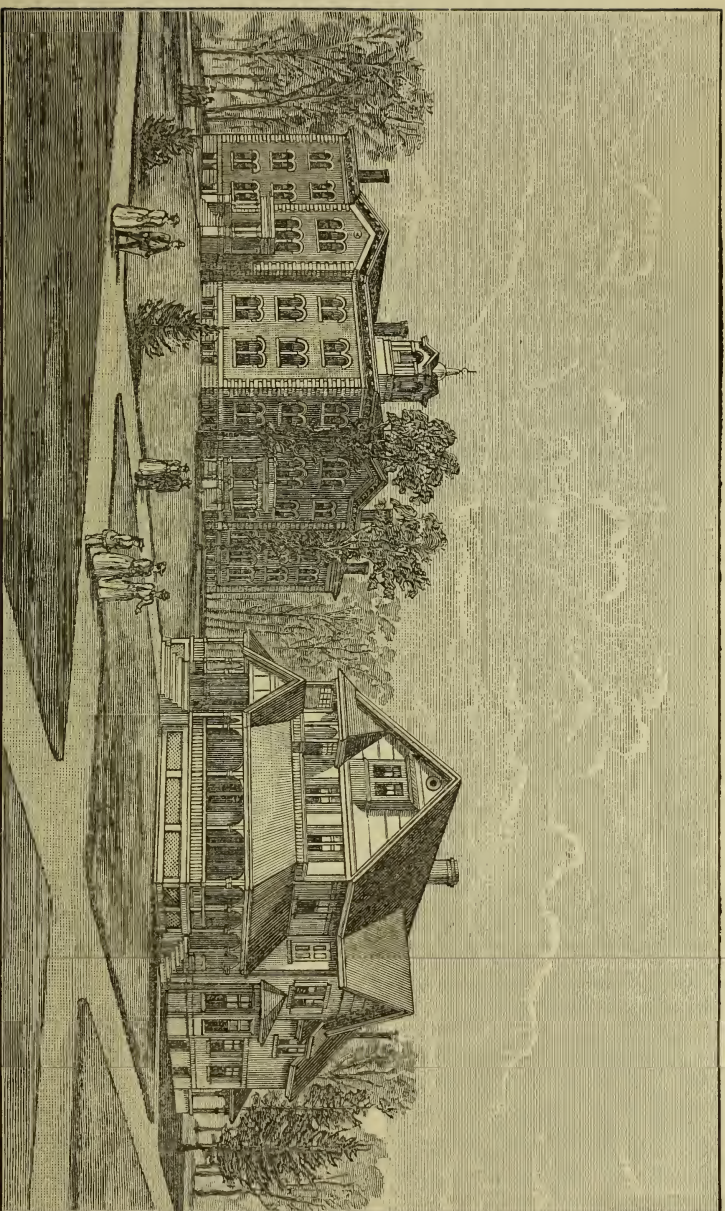

**3d. Literary Course,**  
OF THREE YEARS—MUSIC OPTIONAL WITH PHYSICS—LEADING TO DEGREE OF B. L.

**4th. Literary Course,**  
WITH ONE FULL YEAR OF MUSIC EXTRA, LEADING TO DEGREE OF B. L., AND CERTIFICATE OF MUSIC.

**5th. Musical Course,**  
OF FOUR YEARS LEADING TO DEGREE OF B. M.

In addition to these there is an English Course of two years leading to certificate, the design of which is to furnish a practical education and better prepare teachers in our common schools for higher and better work.

A thorough Preparatory Course in which the instruction is given by the professors in the college is also provided.

The above cut gives a very exact representation of the college building, but no picture can fully represent the campus of ten acres covered as it is with magnificent forest trees. That the artist might "take the building," it became necessary "to cut out the trees." On looking at the picture every student and visitor will supply the beautiful grounds.

## SCIENTIFIC DEPARTMENT.

WHAT has hitherto been known as the Scientific Department has been divided into Biology, and Chemistry and Physics, and an additional professor secured. Professor Maxwell will have charge of the Biological Department, and will spare no pains to make it second to none in colleges of equal rank. Sixteen additional microscopes and other valuable apparatus have been ordered.

Professor Biddle will be in charge of the department of Chemistry and Physics, and his well known ingenuity in these lines warrant efficient work. The Chemical laboratory is already superior to many in colleges of greater pretensions.

## PREPARATORY DEPARTMENT.

Inasmuch as the teaching work of the principal of the Preparatory Department was the giving of instruction in primary Latin, the department as such has been discontinued, and Mr. T. B. Glass, the first honor man of the last graduating class, has been employed by the Board of Trustees to do the work under the immediate direction of Prof. McMillan of the Latin Department, thus not only unifying the work of this department, but combining the ability and skill of an experienced professor with the enthusiasm of a more youthful instructor.

## LADY PRINCIPAL.

The vacancy created by the resignation of the lady principal has been filled by the election of Miss Martha A. Cook, of Rock Island. Miss Cook received her education at Wellesley College and has for the past nine years been the efficient principal of the Davenport, Iowa, High School, and is recognized as one of the prominent educators of the state. She is now in Europe spending her vacation, from which she will return about the first of September better equipped in many ways for her new field of labor.

All the vacancies, including the new professorship, are filled, and well filled, and the courses increased and enriched, and never was the college so well equipped for work as now.

Miss Calvin will again take charge of the German in connection with Elocution; and the literature will be wholly under the supervision of the lady principal from start to finish, securing unity and symmetry in the development of the work.

Profs. Graham, McMillan, Calvin, Winbigler, Biddle and Glass are spending part of their vacation at summer schools, better fitting themselves for their positions. Others of the faculty are tarrying by the stuff and looking after the interest of the college at home.

The entire building, outside and in, is undergoing a thorough renovation and when the students return next September the contrast between their well furnished and inviting society halls and the recitation rooms will have largely disappeared.

## THE CHRISTIAN WORK

of the College has not been overlooked in arranging for the work of the coming year. The president of the Christian Union has been sent to Mr. Moody's Summer School for College Students at Northfield, Mass., and two others to the western Northfield, Geneva Lake, Wis. Good results are not only expected to come to the Christian Union of the College, but through it to the Young People's Christian Union of the Church.

## MONMOUTH

Itself is known as the Maple City, from the great number of maple trees lining its streets and studding its parks. These streets are now being paved with brick and some of them are ornamented with dwellings and grounds as neat and tasteful as one seldom sees. And no city of its size in the state can number as many attractive, convenient and substantial church buildings.

As might be inferred, there is not a saloon in the city or county, but the purest artesian water is abundantly supplied. The Warren County Library, whose tables are covered with papers from all parts of the country and whose shelves are filled with fifteen thousand volumes of well selected books, is constantly filled with readers from the college, city and country,—a reading, intelligent, people.

All these surroundings are educating influences, the value of which cannot well be estimated. Where they are lacking, the students lack the culture and refinement of social life which will greatly impair their usefulness as men and women in their chosen fields and callings. In such a community it has been an easy matter to sustain a lecture course which for years has afforded the students, at a nominal cost, the privilege of hearing the best talent on the platform.

## ITS NEEDS.

That the college may improve its opportunities and keep step with the spirit of progress, the senate at its last meeting introduced measures looking to this end, which if carried out must result in increased efficiency and usefulness, and perpetuate it as a crown of honor to the church.

Material aid is necessary to realize its promising future. The alumni have introduced measures which are full of well grounded hope, the loyalty which characterizes a Monmouth student wherever found.

The community is interested and will lend a helping hand, and in view of the generous contribution of educated men and women, which it annually makes to the church in all departments of her work, the church certainly ought not to withhold her generous help. Let the college have her prayers, her sons and her daughters, and enough of her money to educate them, and she will no longer have occasion to cry in vain for efficient laborers to cultivate her waste places.

Send for catalogue. All inquiries touching the work and workings of any department of the college will be promptly answered by the president.  
J. B. McMICHAEI.

### ENGLISH COURSE.

In the classes of this course the text books are the same as those in the Preparatory and Collegiate Departments.

## REMARKS.

1. No student should enter the Freshman Class of either course until fully up with it.

2. All students should take one of the above courses and pursue it regularly; but those not wishing to do so are permitted to select such subjects as they are competent to study, and can recite with regular classes, provided that they pass the examination which would entitle them to pursue the subject if in a regular course.

3. In the Scientific Course students can take Music instead of German, tuition for Music being extra.

4. All the students are required to attend the worship of God in the chapel daily, and to recite a Bible lesson weekly. Students in the Classical and Scientific Courses will study select portions of the Scriptures, in addition to the usual text books on Moral Philosophy and the Evidences of Natural and Revealed Religion. The President will give frequent lectures on manners, morals and religious duties, intended to train the students to the life of Christian ladies and gentlemen. All who do not reside with their parents are required to attend public worship and Bible class in some church on the Sabbath. Students' prayermeetings are maintained and well attended. The Students' Christian Union, an association of students and professors for the promotion of their spiritual welfare and the cause of Christ in the College, holds regular monthly meetings on the first Sabbath of each month. The Faculty regard it as an important part of their work to labor for the moral and spiritual welfare of the student.

5. The degree of A. B. is conferred upon students who complete and pass satisfactory examinations in the Classical Course.

The degree of B. S. is conferred upon students who complete and pass satisfactory examinations in the Scientific Course.

A certificate of attainments will be given to those who complete and pass satisfactory examinations in the English Course.

### Preparatory Department.

Experience has taught educators the importance of careful preparation, under competent instructors, for the higher work in the College Classes. The special object of this department is to

prepare students thoroughly for entering the Freshman Class. In this department all of the studies pursued have direct reference to the more extended courses which follow. No time is thus wasted in studies which do not lay a sufficiently broad and firm foundation for the higher work. Thorough preparation insures successful College work.

Parents can send their sons and daughters here with perfect confidence that they will be cared for, and placed in course of training IN THE ESSENTIAL BRANCHES, which will prepare them for the Freshman Class.

#### ADVANTAGES.

All advantages in the way of Libraries, Literary Societies, Museum, Lectures, and other features of the College, are open to the students in this Department.

#### CONTROL.

The Preparatory Department is under the superintendence of the President and Faculty, and the special supervision of the Principal. The instruction is given by the regular Professors in the College, and not by tutors.

#### ATTENDANCE.

To secure the full advantage of the above course, the student should enter at the beginning of the Collegiate year, and remain until its close. Students should be present at every recitation. Tardiness is a ground for censure; and absence without permission or reasonable excuse is a ground for dismissal.

#### REPORTS.

A report of the work and attendance of each pupil will be made, at the end of each term, to his parents or guardian. Special reports will be made oftener at the request of the parent or guardian.

#### HONORARY COURSE.

An Honorary Course of Reading in American History and Literature has been adopted for students in the Preparatory Department. Any student who has an average monthly grade of 8.5 in each study, may pursue this course.

---

### English Department.

---

There are many young men and women who have not the time, means, or inclination at present, to pursue a thorough course of training, who nevertheless desire a good English education coupled with the advantages of college associations. For

this worthy class we have provided the best facilities possible in our

#### ENGLISH COURSE.

The course of study is full, and calculated to create a desire, in the student pursuing it, for future study and higher training. Its design is to furnish a practical education, and to prepare young men and young women for business. It furnishes the teachers in our common schools a favorable opportunity to prepare themselves for higher and better positions. The Third Term affords teachers who have taught during the Fall and Winter terms, and others wishing to prepare for regular College Classes, excellent facilities for Reviewing the Common School Branches. All that time the classes are pursuing studies in Wentworth's Algebra (from Radicals), Plane Geometry (from II Book), Botany, Advanced English, English Grammar, History, and Review of Arithmetic.

#### ADVANTAGES.

All the resources and facilities contributing to other courses are available in this course. The instruction is superintended and given by persons who have made teaching a profession, and who on this account are able by example as well as precept to assist and direct the pupil.

---

### Special Course.

---

I. The Special Course includes nine departments, in one or more of which a student may graduate with Honors, first or second, according to the attainments made. These Honors are in no sense competitive. As many as complete the course receive them.

The departments of the Special Course are as follows:

II. 1, Christian Ethics; 2, Philosophy; 3, Natural Science; 4, English Literature; 5, Mathematics; 6, Greek Language and Literature; 7, Latin Language and Literature; 8, German; 9, History.

III. Students will not be admitted as candidates for Honors in Greek, Latin, Mathematics, or German, later than the second term of the Sophomore year; in Natural Science, English Literature, or History, later than the first term of the Junior year; in Philosophy or Christian Ethics, later than the first term of the Senior year.

IV. No student will be admitted to examination for Honors unless the average of his recitations and examinations in each subject the term preceding shall be 8.5.

V. In general, not exceeding one-half as much matter in addition to the amount required in the ordinary course, in any of the above departments, must be mastered in order to a second Honor; and an amount equal to that required in the ordinary course in order to a first Honor.

VI. Honor examinations will be held the first week of each vacation, Senior included, at which candidates for the degree of A. B. or B. S. may present themselves, and those passing in any subject in any Department shall be credited with the same. In case of every candidate, the result of all the examinations will determine the Honor attained.

VII. Alumni may in like manner present themselves for examination in any of the departments named above, at any honor examination, and those passing in any subject will be credited with the same.

VIII. The result of all these examinations will be entered on the College Register.

## MUSICAL DEPARTMENT.

---

Owing to the widely spreading interest in Music in general and the frequent demands for it in connection with the College course, the Senate and Faculty have established a Musical Department in Monmouth College.

The success that has been attained in this department since its opening unmistakably proves the wisdom of the Board in establishing it.

Prof. E. C. Zartman has been chosen as Professor and Director of the Department. Prof. Zartman was for some years a pupil of the late Prof. Karl Merz, Musical Director, of Wooster, Ohio, and under the direction of this eminent instructor and author attained a high degree of culture in his chosen field of labor. Prof. Zartman will devote his whole personal attention to the giving of lessons to pupils and looking after the interests of this Department.

It is not the intention to teach Music merely as an ornamental branch, but to make it a part of a complete education, a higher culture. Hence, with this idea in view, Music has been placed on an equality with other studies in the curriculum.

The following branches will be taught: Piano-playing, Organ-playing, Cultivation of the Voice, Chorus Singing, Harmony, and Musical Composition.

Those desiring private instruction will be accommodated; however, the class system, being long recognized as highly beneficial in its results in other schools of music, has been introduced here.

By this means the cost of musical instruction is brought within reach of persons of limited means, and it is also found that the corrections made for the benefit of one pupil prove likewise beneficial to the other in the class. To play and sing before others is quite a trial for many pupils, and in this the class is found valuable in overcoming this diffidence. It also excites a friendly rivalry that is both stimulating and healthful. Two pupils are considered a class. A musical education is two-fold—an accurate technic must be acquired, and a correct taste developed; hence close attention will be paid to technical studies, while the best works of the Masters will be introduced as the progress of the pupil may require.

## PIANO FORTE.

The great diversity of talent, the ultimate object in the study of music, and the various stages of acquirement of pupils, render it impossible to lay down a course adapted to all pupils. However, the studies or their equivalent, as given in the course below, will be pursued in connection with as many of the principal works of the best Classical, Romantic, and Modern composers as it is possible to study thoroughly, with a correct execution and interpretation, in the time necessary for the completion of the course.

FIRST YEAR.—Matthews's Graded Course of Studies, Vol. I; Six Easy Studies, op. 314, De Kontski, together with pieces suitable to this grade.

SECOND YEAR.—Mason's Touch and Technic; Melodious Studies, op. 52, Book I, Loeschhorn; Intermediate Degree, op. 66, Book I, Loeschhorn; Studies, op. 29 and 32, Bertine; Mason's Accentuated Scales and Arpeggios; Matthews's Phrasing Studies, Book I.

THIRD YEAR.—Krause, op. 2, Book I, (Trill Studies.) Czerney School of Velocity, op. 299, Books I, II; Bach's Two and Three-Part Inventions; Czerney and Kullak's Octave Studies.

FOURTH YEAR.—Tausig's Daily Studies, Book I; Studies from Cramer, (Von Bulow edition); Selections from Bach's W. T. C.; Select Etudes from Raff, Henselt and Chopin.

To complete this course satisfactorily requires four years of faithful study by the pupil of average ability. During this course Harmony and Composition must be studied two years, and History, one year.

## VOICE CULTURE.

The study of vocal music ought to commend itself to pupils of every institution of learning. Aside from being an agreeable diversion in the home circle, as well as a highly desirable accomplishment, it is well known to be beneficial to all, as it is a healthful exercise; for by its judicious daily practice the lungs are expanded and the vocal organs strengthened. Students in this department will be taught the correct management of the breath, tone placing, sustained tones, and at the same time securing agility and flexibility of the voice. To this end will be used Lablache or Pauseron's methods, supplemented by studies from Concom, Abt's vocalises and solfeggios, etc. The German Lied, the Italian Aria, the sacred song as well as the ballad, will all receive attention. The length of the course depends upon the difficulties in the voice to overcome, but is in its extent somewhat like the piano course.

## HARMONY.

Emery's Harmony will be the text book, supplemented by Emery's Additional Exercises.

## HISTORY.

Ritter's text-book will be used, supplemented by the biographies of the Masters, Beethoven and Mozart, and Mendelssohn's Letters, Merz's Hints, Fillmore's History of Piano Music.

## CHORUS SINGING.

It is found that chorus singing cannot be carried on with any degree of success in Colleges and Seminaries admitting but one sex, but in a co-educational institution like our own the facilities for chorus singing have already proven themselves ample. Persons entering the Chorus Class are charged a nominal fee which barely defrays incidental and other expenses connected with the class.

## CONCERTS AND RECITALS.

Recitals, to which the public is cordially invited, are given from time to time by the pupils of the department. It has been the custom in the past to give a concert as a part of the Commencement exercises at the close of each college year. This custom will be continued.

## REQUIREMENTS FOR GRADUATION.

A diploma will be given to all those who have spent at least one year in our institution, and have finished the prescribed course, including the work in Harmony and History.

## MISCELLANEOUS ITEMS.

Students may enter at any time but are not enrolled for less than one term.

Pupils should report to the President of the College, with whom they will make all their arrangements for entrance.

The privileges of the Musical Department are not extended on the same grounds to holders of scholarships and half-rate tuitions, as are the privileges of the other departments of the College.

All persons who have studied music, will, upon examination, be allowed to enter the course for graduation at the point where their proficiency will admit.

Two years of music will be accepted for German.

Students attending the College and desiring to receive instruction in music, are expected to take lessons from the Professor and Director of the Department.

No student connected with the institution will be credited with lessons taken elsewhere except by special permission of the Faculty.

## RATES OF TUITION.

Tuition per session payable in advance, two lessons per week:

FALL SESSION—SIXTEEN WEEKS.

In Classes—Piano and Voice Culture and Harmony, each...	\$18.00
Private Lessons—Piano and Voice Culture and Harmony, ea..	\$27.00
Harmony, in classes of six.....	\$ 6.00

## WINTER SESSION—TWELVE WEEKS.

In Classes—Piano and Voice Culture and Harmony, each...	\$14.00

All class lessons are three-fourths of an hour each; private lessons also three-fourths of an hour each. Good pianos and organs can be rented at the expense of the pupils, or they may bring their own instruments if they prefer.

## SPECIAL REGULATIONS.

---

I. The classification of all students applying for admission to Monmouth College will be by examination, not by certificate, except as provided for in the following:

(1.) Students may be admitted to classes above Freshman on the certificate of honorable dismissal from colleges of like standing with this.

(2.) Students coming from well established Academies and High Schools, whose course corresponds with that of this school, are requested to bring official certificates, *not Diplomas*, from such schools. These certificates shall state what subjects have been studied, with the time devoted to each and the author of the text book used, and the standing in recitation and examination. Blank forms of such certificates will be furnished on application to the President of this college. These certificates will be used by each Professor holding entrance examinations, in determining the extent of examinations needful in his department. Applicants desiring to avail themselves of the benefit of these certificates must have them with them when they present themselves for admission.

(3.) The rank of each new student applying for admission is determined by balancing his credits and deficits.

(4.) Pupils admitted to any class must take all subjects in the course with that class, unless excused by examination conducted by the Professor to whose department the subjects belong.

(5.) Students desiring to make up a back subject are requested to notify the Faculty in writing, and permission to do so may be granted under direction of the Professor in charge of the department to which the subject belongs.

(6.) No student of known immoral character, and none whose influence is likely to be injurious to good order, will be admitted. Applicants for admission, unknown to any member of the Faculty, should bring certificates of good moral character.

II. The Statutes of the College, Chapter ii, Section 3, provide that "No student shall be permitted to enter at a later period of the course than the commencement of the first session of the Senior year." The spirit of this law, in the judgment of the Faculty, requires at least one full year's attendance of a student on the exercises of the college in order to graduation. *Under no circumstances* will this rule, as thus interpreted, be relaxed while the above statute remains unrepealed.

III. The Senate has adopted the following as an additional chapter to the College Statute:

SECTION 1. All persons matriculating shall be regarded as students, and on payment of the required fees shall be entitled to all the privileges of the college.

SEC. 2. Connection with the college is terminated by graduation or dismissal, honorable or otherwise.

SEC. 3. The privileges of the student shall be suspended in all cases of failure to pay the required fee and attend on instruction. Provided, however, that the following privileges, namely, that of examination with his classes, active membership in the societies, representing societies and classes on public performances, and the use of the library and reading room, may be granted to students temporarily absent, for a period not exceeding one year, on written permission from the faculty, and the payment of two dollars per term.

SEC. 4. All persons enjoying any of the above privileges shall be subject to college discipline, the same as if in actual attendance.

IV. At the meeting of the Senate in June, 1874, the following was added to the statutes of the college as Section 4 of Chapter xii:

"It shall be unlawful for any student of the college hereafter to become a member of any secret college fraternity, or to connect with any chapter of any such fraternity, and also for any active member of any such fraternity to be admitted as a student of this college."

V. In regard to grading, examinations and promotions, the following principles have been adopted:

1. Each recitation is marked on a scale of 10; ordinary excellence being indicated by 9, extraordinary by 10. No student whose average recitation grade falls below 7 is entitled to examination with his class. The actual attendance is marked on the same scale. To be marked 10 in attendance the student must be present at every roll-call of his class.

2. Each class is examined on each subject as soon as completed. The examination of each student is marked on the same scale and entered on the Annual Record. To pass, the student must answer correctly at least 70 per cent. of all questions asked him. No student is credited with any subject until he has been examined and passed in it. The student's Final Grade in any subject is determined by adding his examination grade to twice his average recitation grade and dividing this sum by three.

3. The Grand Average of the marks received in all the subjects in which the student has been examined and passed with his class during the year, and of the marks for attendance during the same time, determines the student's rank in his class. This is entered on the Annual Record.

4. In promotions the student's credits and deficits are not balanced. No student will be promoted to the Freshman class whose back work exceeds ten months, or to a higher class whose back work exceeds five months, nor will any student be admitted to the Senior class against whom any back work below Junior is charged.

5. The Salutatory and Valedictory, on Commencement Day, are delivered, the former by the Senior Scientific, the latter by the Senior Classical, who ranks highest.

6. If any student shall be admitted after the beginning of a

session and before the middle of it, he shall pay the fee accruing on the whole session. If admitted at or after the middle of the session he shall pay half thereof.

VI. Reports are sent to parents or guardians at the close of each term. The President should be notified of every case where report fails to come within ten days after the close of the term.

VII. The statutes expressly forbid the students to use intoxicating drinks as a beverage, or play cards, to frequent drinking, gambling, or billiard saloons, or improper places of resort of any kind. The Faculty judge places of amusement commonly called "balls" and "dances" to be improper places of resort for students.

VIII. Students are requested to notify the President before changing their place of boarding.

IX. Ladies and gentlemen are admitted to all privileges of the College on the same footing.

X. No student is allowed to change his subjects of study without permission of the Faculty.

#### HONOR RULES.

I. Competitors for prizes and honors must take all subjects with their class for the time over which the competition extends.

II. Graduating honors shall be decided by the grades of the Junior and Senior year combined.

### LIBRARY.

It is impossible to over-estimate the benefit to those pursuing a college course of free access to well selected books. Few institutions afford library advantages superior to those of Monmouth College. Through the liberality of W. P. Pressly, Esq., the Warren County Library was established in 1870; and by an arrangement made by the college, this library is open to all the students, free of charge in the room. This is one of the best established, conducted and selected libraries in the West. Its endowment is about \$17,000. It contains at present about fourteen thousand volumes, and some six hundred books of the best current literature are added yearly. Prof. Rogers, who has been the Secretary of the Library Association since its foundation, devotes much time to the careful selection of books to be purchased, and renders invaluable assistance to the students in finding works helpful in any investigation they may be pursuing. Connected with the Library is a large and pleasant Reading Room, supplied with all the leading papers, magazines and reviews, both English and American. In the number and expense of periodicals furnished, it is the first in the state outside of Chicago.

### CABINET.

The College Cabinet contains a large assortment of coins, and other articles illustrative of life in Palestine and Egypt, collected by Dr. Barnett; a cast of the Tanis stone presented by Dr. Lansing; and a collection of Chinese articles, the gift of Rev. J. C. Nevin of California.

There is also a fine geological collection, including a very valuable set of fossils, donated by the State of Illinois and authentically labeled by Dr. A. C. Worthen; an excellent set of plaster casts of Trilobites presented by Rev. J. C. Elliott of Swanwick, Ill.; a valuable assortment of minerals presented by Rev. T. D. Davis of Camp Point; an interesting collection of fossils from the Dakota Bad Lands, the gift of Rev. A. Gordon. The Cabinet also contains a large and very fine collection of corals from Florida and other places.

Friends of the College are urged to contribute geological specimens and articles of historic or ethnological value as occa-

sion may present. Mere curiosities or monstrosities are not desired.

#### LABORATORY.

A well arranged Chemical Laboratory, supplied with water and gas, affords separate desks and working room for thirty-two students.

#### APPARATUS.

The College possesses Apparatus sufficient for the demonstration of the most important principles in Physics and Chemistry. The outfit for electrical experiments is especially complete, including a large Ruhmkorff Coil, an Electric Motor, Storage Batteries, incandescent lamps, galvanometers, etc.

#### COLLEGE PAPERS.

The Courier, founded in 1876, and The Collegian, in 1881, were, in 1889, consolidated under the name of The Annex. This is edited by the students and published semi-monthly.

#### ELOCUTION.

This elegant art on a scientific basis is taught throughout the year, as a part of the curriculum, by a thoroughly competent teacher. Very few institutions, East or West, can furnish better facilities for cultivating the power of expressing thought. If it be true that we think in language, it is of the utmost importance we speak the language in which we think. Otherwise our ideas, though clearly thought out, are not expressed. Through a vicious intonation, accent or inflection, they have miscarried and we are misunderstood.

The regular course of instruction, including personal training for all public exhibitions required of the students by the College, is furnished without extra expense to the student. A limited amount of special instruction can be had by the student at a moderate cost.

#### GYMNASIUM.

There is no Gymnasium under direction of the College, but the one in connection with the Y. M. C. A. is fitted up in the most modern style, and is well furnished with all the appliances of a first-class institution of the kind. A competent instructor in physical culture is one of the chief attractions. For five dollars a year students will be entitled, not only to all the privileges of the Gymnasium, but to the bath rooms, etc., of the Y. M. C. A. This is much cheaper and better than could be afforded under direction of the College.

#### SOCIETY PRIZE CONTESTS.

The Eccritean Society has three annual contests among its own members, viz: A Declamation contest, prizes \$5.00 and \$3.00; an Essay contest, prizes \$7.00 and \$5.00; and an Oration contest, called the McKelvey Oration contest, prizes \$10.00 and \$5.00.

The Philadelphian Society has two annual contests among

its members, viz: A Declamation contest, prizes \$5.00 and \$3.00. and an Oration contest, called the Elliott-Cleland Oration contest, prizes \$10.00 and \$5.00.

The Aletheorian and Amateur des Belles Lettres, the ladies' societies, have similar contests.

The Philo-Eccritean contest occurs on the last evening of the first term, and the A. B. L.-Aletheorian on the last evening of the second term. Each of these contests embraces ten points: Declamation, 1; Essay, 2; Oration, 3; Debate, 4. The interest centering in these contests makes them the literary events of the year.

#### STUDENTS' LECTURE COURSE.

Under the auspices of the Philadelphian and Eccritean Literary Societies the following lectures and entertainments have been given in the College Chapel within the college year: Major Henry C. Dane, "The Great Naval Battles of the Rebellion;" New York Philharmonic Club; Chaplain C. C. McCabe, "Sunny Side of Life in Libby Prison;" Nye-Burbank Combination; Swedish Ladies' Quartette; Dr. A. A. Willetts, "Sunshine."

These entertainments have been well patronized and have furnished the students an opportunity, at a trifling outlay, of hearing representative American and English platform orators. A similar course will be given the coming year.

#### GOVERNMENT.

It is the aim of the Faculty to secure good order and diligence in study by force of moral and religious principles, rather than by direct exercise of authority. Those who persist in neglecting their studies, or in pursuing disorderly courses, or in exerting an evil influence, will not be permitted to remain in college.

plied with the ordinance of the Senate regarding fees and expenses, and if any officer admit to his recitation a student who has not paid up his college bills, such officer shall be held responsible for such bills.

Boarding in private families, including lodging and fuel, has, during the past year, ranged from \$3.50 to \$4.00 per week. Many students board in clubs at a cost of \$2.80 per week.

To those who club, pay the lowest rates, and the highest rates in private families, the cost per annum is as follows :

For board, fuel, room and light.....	\$109 20 to	\$136 50 to	\$156 00
For tuition and incidentals.....	40 00 to	40 00 to	40 00
For washing, estimated from.....	12 00 to	15 00 to	20 00
For text-books.....	8 00 to	12 00 to	15 00
Total.....	\$169 20	\$203 50	\$231 00

In the Junior Preparatory and in the First Year English, the cost is \$8.00 per annum less for tuition and incidentals than in the College. The initiation fee for the gentlemen's Literary Societies is \$5 00; for the ladies', \$3.00; and when a student enters the Freshman class he pays a matriculation fee of \$5.00. Books will average about \$11.00 per annum, except during Junior and Senior years, when the cost becomes greater.

The cost of clothing and traveling, and the private incidental expenses of a student are not included. They will depend largely upon the habits of the student. Clothing need cost but little, if anything, more in College than out.

#### EXAMINATIONS.

Each class is examined in each subject when completed. These examinations may be either oral or in writing, and it is intended that they shall be thorough and complete.

#### SESSIONS AND VACATIONS.

The present college year will close on Commencement Day—Thursday, June 9th. The first session of the Thirty-sixth College Year will open on Wednesday, September 7th, and close on Thursday, December 22d. The second session will open on Tuesday, January 10th, and close on Thursday, March 30th. The third session will open on Tuesday, April 11th, and close on Thursday, June 15th. The summer vacation will continue about two months, the winter about two weeks, and the spring about one week.

Monmouth contains over six thousand inhabitants, and is situated at the junction of the Main Line and the St. Louis Division of the Chicago, Burlington & Quincy Railroad, and also of the Central Iowa and Santa Fe. It contains flourishing churches of various Evangelical denominations. There are no saloons in Monmouth.

## HONORS.

---

The following persons received the Honors of the class of '91:

In the Classical Course—J. A. McLaughlin, First Honor.

In the Scientific Course—Lillian Miller, First Honor.

Through the liberality of DR. WALLACE, the use of Two Tickets to the Warren County Library is given to the two students making the highest grade in the Junior Class—one in the Classical and the other in the Scientific Course. T. B. Glass and Ella McCoy have been the recipients of the above during the year.

The class of '85 has left with the Faculty a ticket to the Warren County Library, as its memorial, the use of which during the Junior year is to be given to the student making the highest grade in the Sophomore class. W. R. Sawhill has been the recipient of this ticket during the year.
